## CHAPTER \_\_\_\_\_

1 AN ACT concerning

2 **Environment – Composting**

3 FOR the purpose of requiring the Department of the Environment to maintain certain  
4 information on its Web site related to composting for certain purposes; requiring  
5 the Department, in consultation with the Department of Agriculture and the  
6 Maryland Environmental Service, to study certain matters related to  
7 composting and to make certain recommendations related to the promotion of  
8 composting, including certain information; requiring the Department, on or  
9 before a certain date, to report its findings and recommendations under the  
10 study to the General Assembly including a certain summary; and generally  
11 relating to composting.

12 BY adding to  
13 Article – Environment  
14 Section 9–1722  
15 Annotated Code of Maryland  
16 (2007 Replacement Volume and 2010 Supplement)

17 WHEREAS, Composting extends the life of landfills by diverting organic  
18 material from the landfills and providing a less costly alternative to conventional  
19 methods of treating contaminated soil; and

20 WHEREAS, Composting organic material that has been diverted from landfills  
21 reduces the formation of leachate and the production of methane in the landfills; and

~~Strike out~~ indicates matter stricken from the bill by amendment or deleted from the law by amendment.

1 WHEREAS, Composting filters pollutants in stormwater runoff, preventing the  
2 pollutants from reaching surface water resources; and

3 WHEREAS, Composting has been shown to prevent erosion and silting on  
4 embankments parallel to creeks, lakes, and rivers and to prevent erosion and turf loss  
5 on roadsides, hillsides, playing fields, and golf courses; and

6 WHEREAS, Composting reduces or eliminates the need for chemical fertilizers  
7 and promotes higher yields of agricultural crops; and

8 WHEREAS, The composting process degrades and in some cases completely  
9 eliminates wood preservatives, pesticides, and both chlorinated and nonchlorinated  
10 hydrocarbons in contaminated soils; and

11 WHEREAS, The average U.S. household generates 650 pounds of compostable  
12 material every year; and

13 WHEREAS, Individuals, businesses, and groups interested in composting or  
14 expanding a composting operation have expressed confusion about the current State  
15 laws and regulations governing these activities; and

16 WHEREAS, Better understanding of and communication about the laws and  
17 regulations governing composting may increase composting in the State; now,  
18 therefore,
